

# Interview Assignment

This is a screenshot of the navigational hierarchy in Horizon CMS. (Original attached in e-mail as well). **Assignment is as follows:**

- Recreate what you see as faithfully as possible in HTML/CSS/JS.
- It DOES NOT have to be interactive, but we won't stop you if you want to go the extra mile.
- You can use whatever tools/libraries you want to solve the assignment.
- For reference:
  - CSS library here is TailwindCSS
  - Icons are FontAwesome (some of these icons are Pro only - just use some other ones)
  - Font is "Noto Sans"

*Deliver your work either as a compressed file by e-mail or as a link to a public repository (like GitHub)*

If you have any questions about the assignment, please do reach out to us!
